

A fire took everything away

Immediate help for an artist

Neuenbürg. During the night from Saturday to Sunday an outbreak of fire occurred in the house of a well known artist. According to the artist his appartement completely burnt out. The artist himself is currently at the hospital in a state of devitalization.

According to the report of SWR television on 27 July 2014 a total of six people were hurt. The fire in the top floor of the multilevel building lead to a property damage, according to the police, of approximately 500.000 Euros. The police reported that the reason for the fire might either have been a technical defect or negligent usage of technical devices. There was no evidence of malicious arson.

ARCHE herewith makes a call for donations since the artist needs immediate help for household, furniture and clothing.

Totally burnt out. The appartement of an artist. The entire household and personal belongings robbed by the flames. Picture: Heiderose Manthey
